

JSOA2025 Preliminary Program Day 2

Saturday, September 13, 2025

Room 1

07:30~08:40 Symposium 15 "Rotator Cuff 1"

Moderator: Chunyan Jiang 

Nobuyasu Ochiai 

- 1 **A Stump Classification on Preoperative MRI: A Predictive Factor of Retear after Arthroscopic Rotator Cuff Repair**
Eiichi Ishitani 
- 2 **Effects of the Morphological Characteristics of the Full-thickness RCT on the Postoperative Tendon Integrity after Cuff Repair**
Sang-Jin Shin 
- 3 **Arthroscopic Biceps Rerouting for Large Rotator Cuff Tears**
Yang-Soo Kim 
- 4 **Concepts in Challenging Cuff Tears: Musculotendinous Junction and Complex Tears**
Denny TT Lie 
- 5 **Hybrid Suture Bridge Technique in Massive Rotator Cuff Repair Techniques and Outcomes**
Bancha Chernchujit 
- 6 **Management of Failed Cuff Repair**
Jean-David Werthel 
Discussion

08:40~09:30 Symposium 16 "Rotator Cuff 2"

Moderator: Chanakarn Phornphutkul 

Tadanao Funakoshi 

- 1 **Enhancement of Healing in Arthroscopic Rotator Cuff Repair**
Patric Shu-Hang Yung 
- 2 **Management of Rotator Cuff Tears in the Athletic Population**
Gerald Williams 
- 3 **PASTA lesions in Overhead Athletes: Isolated Bioinductive Repair Versus Suture Anchor Articular Surface Repair**
Dinshaw Padiwara 
- 4 **PASTA Lesions in Overhead Athletes: My Approach**
Teruhisa Mihata 
Discussion

09:40~10:40 Live Surgery 3
“Rotator Cuff Repair”

Moderator: Pascal Boileau 
Teruhisa Mihata 
Surgeon: Hiroyuki Sugaya 

10:40~11:50 Symposium 17
“Rotator Cuff 3”

Moderator: Gerald Williams 
Kotaro Yamakado 

1 Massive Irreparable Rotator Cuff Tears: A Symptom-Based Classification and My Decision-Making Process in 2025

Pascal Boileau 

2 All Arthroscopic Muscle Advancement for Irreparable Massive Rotator Cuff Tears

Ryuhei Furukawa 

3 Clinical and Radiological Results of Arthroscopic SCR with Dermal Allograft and Autologous LHB Tendon

Joe Chih-Hao Chiu 

4 Patch Graft in Massive Irreparable RCT: Is There Integration after Surgery?

Yong-Girl Rhee 

5 Superior Capsule Reconstruction Using Fascia Lata: How Do We Reduce Donor Site Morbidity?

Teruhisa Mihata 

6 Tendon Transfer in Irreparable Rotator Cuff Tears

Paolo Paladini 

Discussion

12:00~13:00 Luncheon Seminar 8 Co-hosted by Stryker Japan K.K.
“Current Status of the Reverse Shoulder Arthroplasty”

Moderator: Kotaro Yamakado 

1 Recent Advances in Glenoid Lateralization

Jean-David Werthel 

2 Metaphyseal Stability in Modern Inlay RSA

Taku Hatta 

13:10~14:10 Special Lecture 2

Moderator: Hiroyuki Sugaya 

1 History & Evolution of Shoulder Arthroplasty: A European Perspective

Pascal Boileau 

2 History & Evolution of Shoulder Arthroplasty: A US Perspective

Gerald Williams 

14:10~15:30 Symposium 18

"Shoulder Arthritis in Young Athletic Patients"

Moderator: Jae-Chul Yoo 

Hiroyasu Ikegami 

1 Young Arthritic Shoulder: Treatment Options

Jean-David Werthel 

2 Young Arthritic Shoulder: Treatment options and Japanese Perspective

Kotaro Yamakado 

3 Comprehensive Arthroscopic Management for Young Arthritic Shoulder: Techniques and Outcomes

Matthew Provencher 

4 Hemiarthroplasty for Young Arthritic Shoulder: Indication, Technique and Outcomes

Pascal Boileau 

5 Young Arthritic Shoulder: How I manage it?

Gerald Williams 

6 Anatomic or Reverse TSA for Young Arthritic Shoulder: Indication and When to do Reverse?

Paolo Paladini 

Discussion

15:40~17:00 Symposium 19

"Shoulder Arthroplasty & Sports"

Moderator: Paolo Paladini 

Shinji Imai 

1 Reverse Shoulder Arthroplasty: How Do We Choose the Implant?

Jean-David Werthel 

2 Reverse Shoulder Arthroplasty: Influence of Deltoid Arc and Thickness on the Outcomes

Denny TT Lie 

3 Influence on Version on ROM after Reverse Shoulder Arthroplasty

Ashish Babhulkar 

4 Return to Sports Activity after Reverse Shoulder Arthroplasty

Jae-Chul Yoo 

5 Effect of Early Abducted Internal Rotation Exercise on Sports Return after Reverse Shoulder Arthroplasty

Shinji Imai 

- 6 **Reverse Shoulder Arthroplasty: How much can we allow patients to enjoy Sports after surgery? -My perspective**

Pascal Boileau 

- 7 **Reverse Shoulder Arthroplasty: How much can we allow patients to enjoy Sports after surgery? -My perspective**

Gerald Williams 

Discussion

17:00

Closing Remark

Hiroyuki Sugaya 

Room 2

07:30~08:50 Symposium 20 "PLRI in Elbow"

Moderator: Atsuhito Seki 

Kazuki Sato 

1 **Functional anatomy of the lateral collateral ligament for the elbow**

Akimoto Nimura 

2 **Treatment experience of PLRI: acute/secondary, Including the injury mechanism and characteristics of each case**

Daisuke Nakayama 

3 **Treatment experience of PLRI: acute/secondary, Including the injury mechanism and characteristics of each case**

Yusuke Kawano 

4 **Treatment experience of PLRI: acute/secondary, Including the injury mechanism and characteristics of each case**

Shohei Iwabu 

5 **Treatment experience of PLRI: acute/secondary, Including the injury mechanism and characteristics of each case**

Yasuhiro Kiyota 

6 **Treatment experience of PLRI: acute/secondary, Including the injury mechanism and characteristics of each case**

Shukuki Koh 

7 **Treatment strategy for PLRI**

Junya Imatani 

Guest Commentator Shawn O'Driscoll 

08:50~09:20 Keynote lecture 3

Moderator: Kazuki Sato 

Postero-lateral Rotatory Instability Variants in Elbow Instability

Shawn O'Driscoll 

09:30~10:30 Instructional Lecture 6 "How Long Can Meniscal Repair Last in Degenerative Meniscus?"

Moderator: Ken Okazaki 

1 **MMPRT pull-out repair combined with centralization and OWHTO**

Hideyuki Koga 

2 **Improving Meniscus Healing**

Sachin Tapasvi 

10:30~11:50 **Panel Discussion 6**

"Treatment strategies of the multi-ligament knee injury in athletes"

Moderator: Yasuyuki Ishibashi 

Eiji Kondo 

1 **Surgical strategies of ACL + MCL combined injury for athletes**

Takuya Tajima 

2 **Posteromedial corner knee injury: Anatomic based concept of repair/reconstruction**

Chanakarn Phornphutkul 

3 **Multi-Ligament Knee Reconstruction:
Surgical Strategies for the High-Level Athlete**

Rachel Frank 

4 **Minimally invasive posterolateral reconstruction:
Techniques and outcomes**

Bancha Chernchujit 

5 **Outcome and return to sports following acute primary repair of extraarticular ligaments and staged intra articular ligament reconstruction in multiple ligament knee injuries**

Yuka Kimura 

12:00~13:00 **Luncheon Seminar 9 Co-hosted by Smith & Nephew KK**

"Anatomical ACL Reconstruction using the Hamstring & BTB"

Moderator: Tomoyuki Suzuki 

1 **Double-Bundle ACL Reconstruction Using the Semitendinosus Tendon:
Surgical Technique and Clinical Practice**

Yuka Kimura 

2 **Pursuit of Anatomical Anterior Cruciate Ligament (ACL)
Reconstruction-Anatomical Rectangular Tunnel (ART)
ACL Reconstruction with BTB graft-**

Tomoki Ohori 

13:10~14:10 **Instructional Lecture 7**

"Treatment for chondral lesions"

Moderator: Atsuo Nakamae 

1 **Treatment of Patellar Osteochondral lesions with OAT
(Osteochondral autograft transfer)**

David Figueroa 

2 **Treatment of Knee Chondral Lesion: Outcomes and Future Perspectives of
Autologous Chondrocyte Implantation (ACI)**

Ryuichiro Akagi 

14:20~15:40 **Live Surgery 4**

“MMPRT pull-out repair combined with centralization and OWHTO”

Moderator: Sachin Tapasvi 

Daisuke Araki 

Surgeon: Hideyuki Koga 

15:50~16:50 **Instructional Lecture 8**

“Current Status and Future Perspectives of Stem Cell Therapy for Sports-Related Knee Injuries”

Moderator: Ichiro Sekiya 

1 **Current Status and Future of Stem Cell Treatment in Japan (Tentative)**

Norimasa Nakamura 

2 **Stem cell therapy for sports related knee disorders**

Jin-Kyu Lee
